

Xavier Educational Services & Technology Pvt. Ltd.

“One Partner Every Solution. Built for exceptional schools and institutions”

Interactive Flat Panels

These high-definition AI Enabled 4K displays are a cornerstone of the Smart & Interactive Classroom. They provide a touch-enabled, multimedia-rich platform for teachers to present lessons interactively. Students can engage with the content directly, enhancing their learning experience through real-time interaction and collaboration.

Interactive Flat Panels (IFPDs) provide excellent, dependable, and reasonably priced performance. These multi-touch displays, which come in sizes of 55", 65", 75", 86", 98" & 110", provide accurate, user-friendly interaction that improves instruction, learning, and teamwork. With a full suite of AI-powered Panels, IFPD now offers intelligent tools for digital learning and business collaboration, such as voice control, auto-framing, and handwriting recognition, making meetings and classes genuinely immersive.

IT Solution

Empower digital learning and administrative efficiency with reliable IT solutions featuring high-performance desktops, laptops, printer, photocopiers. These devices support a wide range of academic and operational needs. We are a trusted provider of end-to-end IT solutions, delivering high-performance technology tailored to modern institutional needs. From reliable computing infrastructure and efficient printing solutions to advanced digital displays for classrooms and communication, our offerings are designed for durability, clarity, and seamless integration. We work with leading brands to ensure quality, while our expert team handles installation, configuration, and ongoing support. With a strong focus on performance, scalability, and service excellence, we are the preferred partner for organisations seeking dependable and future-ready IT solutions.

ERP School Solutions

We are a leading provider of ERP solutions and school management systems, delivering intelligent, user-friendly platforms that streamline every aspect of institutional operations. Our systems seamlessly integrate admissions, attendance, academics, examinations, finance, and communication into one unified solution, enabling schools to operate with greater efficiency and transparency. Designed for scalability and ease of use, our ERP solutions adapt to the unique needs of each institution while ensuring data security and real-time access to information. With expert implementation, reliable support, and a commitment to innovation, we empower schools to make smarter decisions and deliver a more connected, efficient learning environment.

School Lab, Lab Equipment & Supplies

A well-equipped Physics, Chemistry, and Biology lab is essential for fostering curiosity, innovation, and practical understanding in students. These laboratories provide a hands-on learning environment where theoretical concepts are brought to life through experiments, observations, and real-world applications.

Our Modern school laboratories are designed with advanced equipment, safety features, and structured workstations to ensure a secure and effective learning experience. By bridging the gap between theory and practice, these labs make learning more engaging, meaningful, and impactful, preparing students to excel in science and beyond.

CCTV & Surveillance Solutions

Enhance safety, security, and peace of mind with advanced CCTV surveillance systems designed for modern environments. Whether for schools, offices, retail spaces, or residential areas, CCTV cameras provide continuous monitoring and real-time visibility of your premises. High-definition video quality ensures clear footage, making it easier to identify incidents, monitor activity, and maintain accountability.

With features such as remote access, motion detection, night vision, and cloud storage, CCTV systems offer smart and reliable protection around the clock. Users can view live or recorded footage from anywhere using their smartphones or computers, ensuring constant control even when off-site.

School Furniture and Play Equipment

We are a trusted leader in supplying premium school furniture and play equipment, combining quality, durability, and thoughtful design to create inspiring learning environments. Our products are crafted using high-grade materials and adhere to the highest safety and ergonomic standards, ensuring long-term reliability for institutions. From modern classroom furniture to innovative outdoor play solutions, we deliver products that enhance both functionality and student experience. With a strong commitment to excellence, timely delivery, and tailored solutions, we are the preferred partner for schools seeking superior quality and lasting value.

Robotics & AI Lab

Empower your institution to lead in future-ready education with our AI-Powered Robotics Learning System. As a trusted service provider, we deliver end-to-end solutions that integrate robotics, artificial intelligence, and hands-on STEM learning into your school's ecosystem. Our labs are designed to foster critical thinking, problem-solving, and real-world innovation through interactive modules, coding platforms, and intelligent automation tools. With age-appropriate curriculum support, teacher training, and seamless installation, we ensure a smooth transition to advanced learning environments. Our scalable and future-proof solutions equip students with the skills needed for emerging technologies, positioning your school at the forefront of modern education.
